# TECHNOLOGY & MAINTENANCE COUNCIL

TURNING EXPERIENCE INTO PRACTICE

November 18, 2022

The Technology & Maintenance Council (TMC) invites you to join us for our 2023 Annual Meeting & Transportation Technology Exhibition, February 27 -March 2 at the Orange County Convention Center in Orlando, Fla. In addition to a strong slate of educational sessions, TMC's Annual Meeting includes trucking's complete technology trade-show featuring technical experts from the industry's top manufacturers and suppliers.

In 2023, TMC will focus on *advancing reliability through root cause analysis*. The Council's 2023 Annual Meeting carries on its tradition of providing thought leadership with a focus on ways to improve maintenance, sustainability and fuel efficiency. Several of our educational sessions will address emerging truck/trailer technologies, vehicle electrification issues, key performance indicators and benchmarking solutions, and equipment specification trends, as explained in detail in our meeting brochure.

I invite you to join us for this industry-wide celebration of technical leadership and innovation. During the week, there will be more than 100 industry task forces meeting to resolve issues critical to your fleet, as well as a broad offering of technically oriented educational sessions. TMC's Annual Meeting & Transportation Technology Exhibition remains the premier event for fleet management and offers a comprehensive array of information that is vital to the growth and success of your company.

For details, see the enclosed meeting brochure and registration info, visit TMC's event microsite — <http://tmcannual.trucking.org> — or call TMC offices at (703) 838-1763.

I encourage you to take advantage of this opportunity and join us at TMC's 2023 Annual Meeting. We look forward to seeing you in Orlando!

Sincerely,

Robert Braswell  
TMC Executive Director
